Wealth Health Check-Up™

Find Out if Your Family Is On Track for a Secure Future!

The first step to building wealth and a life with less stress and fewer worries is getting control over your financial situation today. This can be done by working with a trusted financial advisor - which is something that is very difficult to find and even more difficult to afford.

We created the Wealth Health Check-Up™ to provide you with access to the knowledge, experience and perspective of a CERTIFIED FINANCIAL PLANNER™ Professional - but at a reasonable cost and with no sales pitches, obligations or strings attached.

For a low, flat fee you will get a complete "bumper to bumper" review of your current financial situation, answers to your questions, an understanding of the financial tools you already have and some ideas on what your next steps might be.

The Wealth Health Check-Up™ completes the first part of the ALTUS Process™ and the first step of any successful strategic effort - knowing exactly where you are. After this, you can focus on gaining clarity of where you want to be, building a strategy to connect the two and finally taking action and implementing your plan.

WHAT YOU GET

- 90 minutes with a Wealth Coach and CERTIFIED FINANCIAL PLANNER™ professional.
- A complete review of your current financial situation.
- Answers to your most pressing financial questions including access to resources.
- Free access to our web-based modeling and planning software for 30 days.
- Access to a financial professional who has a fiduciary responsibility to do whatever is in your best interests.

The Wealth Health Check-Up™ is similar to a medical check-up. We'll look at every aspect of your financial well-being. We'll identify strengths and offer you ways to build on those strengths while protecting yourself from the risks of ever-present systemic weaknesses that we will identify as part of the check-up.

BENEFITS

When our meeting is over you will:

- Understand the basic elements of your personal financial situation including an understanding of each financial product you currently have.
- Know what is working today and how to fix what is not working tomorrow.
- KNOW you are on track to achieve the things in life that are most important to you.
- Know where to go for access to resources, tools and techniques to help you on your journey to a more secure future for your family.
- Sleep better at night with less stress and fewer worries about money.

For many people, a Wealth Health Check-Up™ is all that is needed every year to stay on track financially. Many people don't need monthly meetings, an expensive leather binder or sales calls from someone every quarter.

You just need a trusted advisor (a financial professional) to make sure everything is OK and to be available should something come up when you do need help.

Frequently Asked Questions

What Do I Need to Bring to the Meeting?

There are a number of documents you will need to gather and information that needs to be collected and entered into our secure, web-based financial planning software before our meeting. You will receive a letter explaining all the details. Expect to spend a couple hours getting your financial information together and organized.

Why Do You Charge $397? Why Not For Free?

We realize many investment houses will provide you with a free first meeting to get you to come in. But then you have to wonder, “What do I have to buy? What products are they going to trying to sell me? How are they getting paid for this?”

As in all industries, in the investment world you “get what you pay for.”

We offer good advice at a fair price and an **unconditional guarantee:** If you are not completely satisfied with the value that you receive … we will refund your fee completely.

What Are You Going to Try to Sell Me?

Absolutely nothing. The purpose of this meeting is to accomplish a complete review of your current financial situation. We will also answer as many of your questions as we can in the two hours AND leave you with some financial planning tools you can use to get control over your money before it takes control of your life.
